STATEMENT REGARDING SEQUENCE LISTING

June 23, 2009

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Official Communication mailed June 19, 2009, consideration of the attached and the following remarks is requested. No extension fee is due.

The raw sequence listing of April 25, 2009 objected to Applicants' description of the artificial sequence and requested an explanation of the source of the genetic material. In reply, Applicants clarify that they are artificial peptides and a corrected Sequence Listing as .pdf and .txt (ASCII) files is submitted herewith.

Kindly enter the attached paper and computer readable forms of the substitute Sequence Listing in lieu of the copy submitted on February 12, 2009. Their entry does not add new matter; their contents are the same.

The Examiner is invited to contact the undersigned if any further information is required.

Respectfully submitted,

NIXON & VANDERHYTE P.C.
